

# Odiak Pond

*marina madison*

Odiak Pond may just be a small pond by the Grassy Field but if your there for a field trip, it's much more. It is a area to sample water and turbidity. A place to look at algae and small bugs. To find fish and to pick up trash. Odiak Pond is also somewhere you can go to have a picnic in the Gazebo. You could go walk on the board walk, or take pictures of the wildlife. As you can, tell Odiak Pond is a fun filled place to

Seeing the algae they collected

Kylie looking at a fish

Tromping through the trees

Whitney holding a fish

Analyzing water trying to stay dry

Odiak Pond Field Trip

Getting bugs

Looking at the fish caught

Found Trash at Odiak Pond 2013
