

DO YOU WANT TO LIVE IN A DUMPSTER?

We can help the Pond if we use trash cans instead of littering. A wrapper doesn't take up much room in your pocket.

Odiak pond is full of Trash and we need your help to clean it up. Do you really want to live in this kind of environment.

We should stop littering because it is disgusting to look at. There are spawning salmon in the pond & the trash can hurt them.

Recycle what you can and trash other garbage.
