

DON'T BE TRASHY!

Pick it up.

HOW CAN WE FIX THIS?

Many people may not know this, but every single piece of trash you pick up everyday helps. By picking up trash on the streets, sidewalks, river sides etc. you are helping the city of Cordova maintain a healthy environment. For the fish and for our people.

WHAT IS THE PROBLEM?

Many people in the city of Cordova are careless about their trash, and a lot of it ends up on the ground, on the streets, and on the sidewalks, not only making our city look dirty, but it is very unsanitary, so please help us pick up Cordova, because i know I don't like seeing trash and you shouldn't either.
