class

# Odiak Pond Trash Clean up

*What's the Problem?*

*There has been too much trash ending up in Odiak Pond. The Cordova 7th grade class wanted to help. For the 2012-2013 school year, they picked up 350+ pieces of trash. The class went out rain or shine ready to pick up trash*

*What the Community can do.*

*If you see a piece of trash on the ground just pick it up. Make sure you bring all your trash with you when you leave the Pond.*
